

SUPER CTAC WORLD

The New Best Super SAS Platformer

Introduction

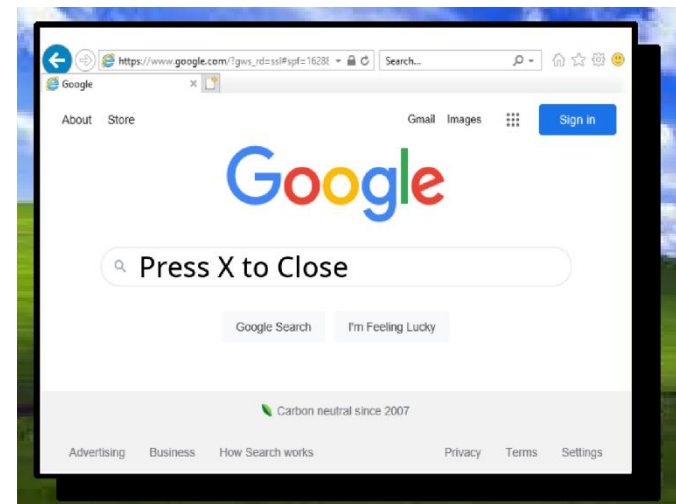

In Super CTAC World, you play as the CTAC through 6 different levels. You'll have to get used to the craziness of the CTAC to get past various obstacles and enemies as you make your way through each level. You'll even find Kirby Legs and SASHrooms to help you on your way.

Title Screen

On the title screen, you'll find three buttons. The first one, "Start", starts the game and displays the world map. The second one, "Internet Explorer", is useless. I have no idea why you would want to click that. The third one, "Credits", displays the game's credits.

World Map

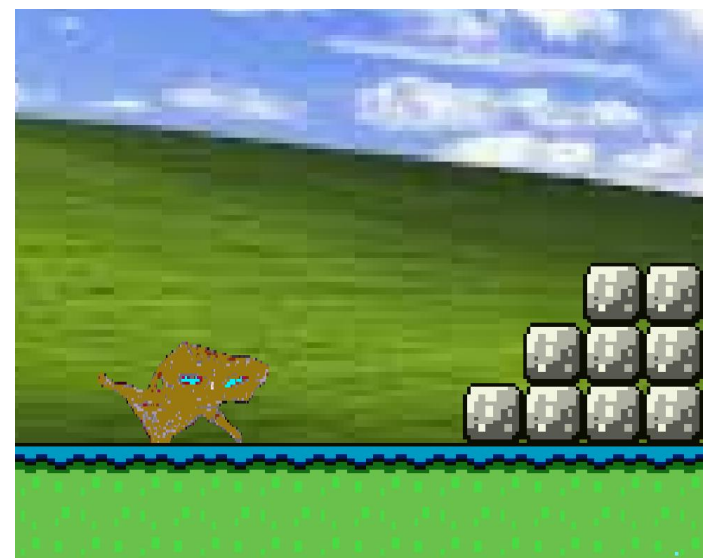

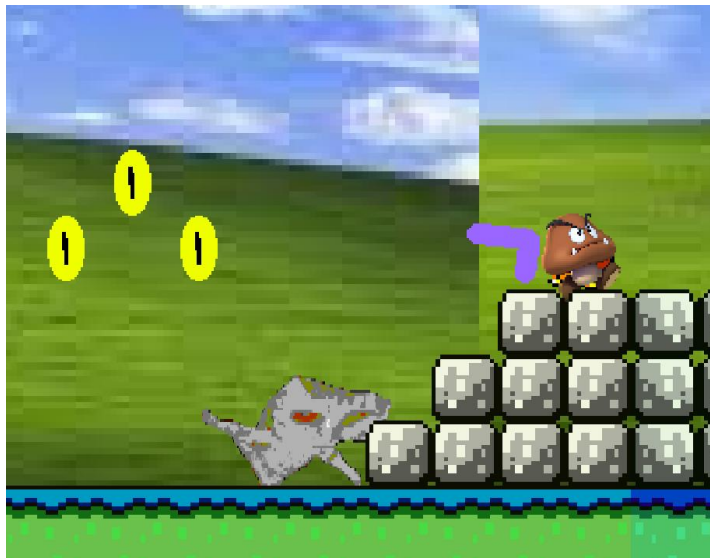

The *World Map* is your gateway to playing the levels. Use the **Arrow Keys** to move around the map. Use **Space** to enter a level.

Tip: If you can find the true ending, something cool might happen...

Playing a Level

When entering a level, you'll be greeted by a few things. At the top of the screen, you'll find the *Heads-up Display*, or *HUD* for short. This displays how many **Tokens** you currently have, as well as how many **Lives** you have. You'll also find the *Item Slot*, which shows if you are using a **Kirby Legs** to protect against enemies. Toward the bottom is the actual level. You'll use the **Left and Right Arrow Keys** to move. And the **Up Arrow Key** to jump. You can also use the **Zero Key** to gain **SUPER SAS** powers! However, there are two bad sides to using Super SAS Power. You can only use Super SAS Power once, and not only will the enemies disappear, the SASrooms and Tokens will also disappear. So, use Super SAS Power carefully!

Items

The items in Super CTAC World are meant to help you on your adventure. There are three items: *Tokens*, *SAShrooms*, and *Kirby Legs*.

Tokens are yellow-and-black objects that you can find in a level. Collecting 100 gives you an additional life.

SAShrooms are green-and-white mushrooms with “SAS” on their cap. They give you an additional life.

Kirby Legs are red smiling puffballs with thick pink legs. Collecting one gives you protection against enemies. However, getting hit by an enemy will cause the Kirby Legs to disappear, so be careful!
